

In regard to docket: 04-233.

The recent decision by Sinclair Broadcasting to show an anti-Kerry movie just days before the election is an abuse of the privilege granted by the FCC for the use of the public air-waves. It is a clear example of what is wrong with the FCC decision to allow media consolidation. When a company with the capability of cover ¼ of the US population can run infomercials in support of a candidate there is something terribly wrong.

I strongly request that the Commission take action against Sinclair during the renewal process to prevent them from their continued abuse of the public air-waves.
